

# Capstone Final Project

By

**TADISETTI RAJU**

DATA:

- For solving problem, I need data related to cities in Andhra Pradesh and Foursquare data.
- The cities in Andhra Pradesh, I got that data from Wikipedia by using this link  
[https://en.wikipedia.org/wiki/List\\_of\\_cities\\_in\\_Andhra\\_Pradesh\\_by\\_population](https://en.wikipedia.org/wiki/List_of_cities_in_Andhra_Pradesh_by_population)
- Along with cities I need latitudes and longitudes of those cities
- The foursquare venues data I need is:
  - Malls venues in those cities
  - Schools venues data
  - Colleges and universities
  - Office and restaurants data

By using that data, I can find the best city for starting a mall to customer.
