

Capstone Final Project

By

TADISETTI RAJU

Business Problem:

- The customer wants to start new mall (shopping and multiplex) in Andhra Pradesh a state in India, which consist of some major and minor cities.
- He wants best city where he can get maximum audience and customers with less competition.
- My work is to find best city for starting a mall to the customer.
- Targeted audience are businessmen those who want to construct a mall and real estate people.
- Because those people want to start a mall in a city they can get maximum customers.
